

AI product engineer building the layer that makes LLM features dependable in production: retrieval, tool calling, structured outputs, and async orchestration. I ship the React interface and the FastAPI service behind it, for internal products used by 38,000+ employees

EXPERIENCE

### Frontend Engineer, Copilots

T-Bank

Fullstack delivery across React, Svelte, Angular, and FastAPI on an LLM assistant used by 38,000+ employees · Product ownership from the interface through to the FastAPI services behind it

NOV 2025 - PRESENT

### Frontend Engineer, AI Image Generation

T-Bank

Owned major Angular product surfaces for internal AI tooling · Delivered FastAPI-backed features without separate backend handoff

JUN 2024 - OCT 2025

### Software Engineering Intern

T-Bank

Entered production AI product development as an intern · Moved quickly from onboarding tasks to real feature work

JAN 2024 - JUN 2024

### Software Engineering Intern

Qoollo

Worked on a counterfeit-detection web app during internship · Prepared Python educational materials for School 21

SEP 2023 - JAN 2024

SELECTED INTERNAL PRODUCT WORK

#### Image Generation Platform UI

Owned an Angular UI for internal image-generation workflows, with board-based organization, async task polling, reactions, and editing flows

#### Image Generation BFF

Built a FastAPI BFF with SSO integration, event processing, database persistence, object storage, and task orchestration for an internal image-generation UI

#### Internal AI Assistant

Contributed to an internal AI assistant with Svelte, React, and FastAPI, helping drive frontend migration and feature delivery in parallel for a product used by 38,000+ employees

CORE STRENGTHS

- LLM reliability: retrieval, tool calling, structured outputs
- Async orchestration, queues, and streaming
- React product engineering
- FastAPI services and API design
- Legacy frontend migration to React

SELECTED PUBLIC WORK

#### StudHack

Angular 21 · TypeScript · ASP.NET Core 8 · PostgreSQL

#### FastAPI MVP

FastAPI · Python · MongoDB · S3 · Prometheus

#### OpenAI Async Functions

Python · AsyncIO · Pydantic · Tool Calling · OpenAI-compatible APIs

#### lint-gost-tex

Python · CLI tooling · LaTeX · Text linting

EDUCATION

#### Bauman Moscow State Technical University

Bachelor's in Software Engineering (IU7)  
SEP 2022 - PRESENT

#### Samsung IT School

Android Development in Java, diploma with honors  
SEP 2020 - MAY 2021

LANGUAGES

Russian — Native

English — IELTS Academic 7.5 (C1)

HIGHLIGHTS

#### Finopolis 365 AI Track

Prize winner in a youth AI-focused hackathon stream

#### AI Talent Hackathon

Built product prototypes in an AI-generated content hackathon environment
